Fitnice Wall. Woven Vinyl Wall Covering

fitnice wall is the perfect combination between functionality and design. The excellent results obtained with the highest certifications have converted fitnice wall into one of the most highly demanded wall covering solutions, for both public spaces and private settings.

The tones in the **Advanced Fabrics Coordinated** series can be found in all vertisol's textile solutions for architecture.

fitnice wall can be cleaned easily, even by the application of sodium hypochlorite and other detergents.

fitnice wall is a textile wall solution with excellent abrasion resistance and great durability. The excellent results obtained with the highest certifications makes **fitnice wall** one of the most proper solutions for heavy traffic areas.

fitnice wall is a product free of phthalates, a component used in certain PVC products and potentially harmful to humans.

fitnice wall has been tested by independent laboratories and subjected to the specific regulations of different countries, with satisfactory results in all cases. It complies with the most stringent fire regulations being Bs2d0.

Wide range of colours and textures through our three collections. Each collection has own identity and a colour palette specially designed to create projects of all kinds.

Roll Length	-	9 ml	9 ml	9 ml

All specifications are based on average values and may deviate. The values are for guidance and are not contractual. Subject to technical modifications. The straight weft is not an inherent condition. Weaving technology features colour effects because of light, making it an exclusive and unique product. Also biclour yarns create a randomly harmonious effect. These effects are no ground for claims.
